This document is an abridged version of the full metadata which can be viewed using ArcGIS.

Summary

Indian Territory Boundaries in New York State.

Description

Published: August 2022

A vector polygon GIS file of all Indian Territory boundaries in New York State. The file was originally a compilation of U.S. Geological Survey 1:100,000-scale digital vector files and NYS Department of Transportation 1:24,000-scale and 1:75,000-scale digital vector files. Boundaries were revised to 1:24,000-scale positional accuracy. Currently, boundary changes are made as needed based on authoritative sources.

FIELD DESCRIPTION

Geographic Names Information System (GNIS) identification number. "The GNIS is the official vehicle for geographic names use by the Federal Government and the source for applying geographic names to Federal maps & other printed and electronic products. The system supports the U.S. Board on Geographic Names, a Federal body created in 1890 and established in its present form by Public Law in 1947."

- * DATA TYPE String
- * WIDTH 4

FIELD DESCRIPTION

American Indian Area code. The U.S. Census Bureau uses codes in the InterNational Committee for Information Technology Standards (INCITS) 446-2008 standard to identify American Indian areas. This standard "Applies to selected named physical and cultural geographic features, geographic areas, and locational entities, except roads and highways, that are generally recognizable and locatable by name (i.e., have achieved some landmark status) and are of interest to any level of government and to the public for any purpose that would lead to the representation of the feature in printed or electronic maps and/or geographic information systems".
